

1 Also attached to Exhibit A are pages 139-140 to the July 13, 2006 deposition of  
2 Samreth Sam.

3 B. Page 3 of the August, 2003 United States Census Bureau Report: "Domestic  
4 Migration Across Regions, Divisions, and States: 1995 to 2005" from  
5 <http://www.census.gov/prod/2003pubs/censr-7.pdf>, which I printed on or about July 17, 2006.  
6 I added the underlining and the boxes. Exhibit B shows an outmigration rate in Washington  
7 State of 103.4/1000 (10.34%) for the years 1995-2000.

8 I swear under penalty of perjury under the laws of the state of Washington that the  
9 foregoing is true and correct and of my own knowledge.

10 DATED this 21<sup>st</sup> day of July, 2006, at Olympia, Thurston County, Washington.

The operation has timed-out.

1           The three-digit Social Security number may also be a  
2 transformation caused by my update of the file into Microsoft  
3 Access if there were a leading zero, for example. I believe  
4 that Microsoft truncates leading zeros if it recognizes that  
5 particular field as a number. So it is entirely -- as I  
6 understand it, it is entirely possible that the Social  
7 Security digit submitted would have been 0108.

8                           THE WITNESS: Yeah, because there were  
9 quite a few of those.

10                          MR. OVERSTREET: One out of ten.

11                          MR. LEVITT: It would be represented on  
12 that list as 0108.

13 Q. (BY MR. OVERSTREET) But the principle is still true that  
14 initially mismatched Social Security numbers can end up  
15 becoming matches through the resolving process?

16 A. Yes. Through the procedural process, yes. That is possible.

17 Q. If I can point you to Exhibit 19.

18 A. 19.

19 Q. Do you know approximately when Exhibit 19 was created?

20 A. Exhibit 19 would have been created approximately the third  
21 week of June.

22 Q. 2006?

23 A. 2006.

24 Q. And I believe you said that Exhibit 19 appears to be the list  
25 of applicants who were ultimately canceled; is that correct?

Samreth Sam 7/13/06

Page 140

1 A. Yes, that is correct.

2 Q. Do you know if it's essentially a complete list of those who  
3 were canceled, or are there many more?

4 A. I would say, to the best of my knowledge, that this is a  
5 complete list.

6 Q. If I represented to you that Paul Miller testified earlier  
7 that there were about 135 applicants who had been canceled,  
8 would the 135 he was speaking of -- could that have been  
9 basically what is included in Exhibit 19?

10 Are those the two -- are those two the same things, to  
11 the best of your knowledge?

12 A. Yes.

13 Q. There's a County code here.

14 What's "CR"?

15 A. "CR" is Clark County.

16 Q. Earlier you testified about approximately 1,500 records being  
17 unresolved and deleted. Is that accurate?

18 A. Can you clarify "and deleted"?

19 Q. I'm not sure.

20 The 1,500 records that you testified were unresolved,  
21 what did you --

22 A. I can clarify that.

23 Q. -- you mean by that?

24 A. The 1,500 that I testified as unresolved are the ones that  
25 are still in a pending status because of driver license or

# **EXHIBIT B**

**Table 1. Domestic Migration for Regions, Divisions, and States: 1995 to 2000**

(Data based on a sample. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [www.census.gov/prod/cen2000/doc/sf3.pdf](http://www.census.gov/prod/cen2000/doc/sf3.pdf))

- Net migration and the net migration rate for domestic migration for the United States are zero by definition.  
 \* Gross migration and the gross migration rate for region, division, and state totals are not computed.

<sup>1</sup>The net migration rate is based on an approximated 1995 population, which is the sum of people who reported living in the area in both 1995 and 2000, and those who reported living in that area in 1995, but lived elsewhere in 2000. The net migration rate is the 1995-to-2000 net migration, divided by the approximated 1995 population and multiplied by 1000.

<sup>2</sup>Interregional migration.

<sup>3</sup>Interdivisional migration.

<sup>4</sup>Interstate migration.

Note: A negative value for net migration or the net migration rate is indicative of net outmigration, meaning that more migrants left an area than entered it, between 1995 and 2000. Positive values reflect net immigration to an area.

Note: Census 2000 migration data include Puerto Rico among all movers from abroad. Because this report focuses solely on domestic migration, Puerto Rico has been excluded from this table. Puerto Rico migration data are available on the Census Bureau's Web site: [www.census.gov/population/www/cen2000/migration.html](http://www.census.gov/population/www/cen2000/migration.html).
